

Building works 18 February - 31 March

What is happening?

Between **8:30am and 4:30pm Monday to Friday**, we are undertaking a range of concrete investigation works in empty apartments and soil sampling – all to help us plan for the future.

We are working to minimise work during Ramadan.

What to expect

There will be short bursts of loud noise as crews use drills, machinery and power tools.

You will be able to access your home. Crews may block some parts of the building for short periods.

Crews in white hazmat suits will be completing a routine scan and clean of garden areas.

What to do

- We ask you to follow signs and directions from work crews.
- There will be some loud noise and dust – you may need to close windows and doors.
- We do not need access to your home. You will be able to access your home at all times.
