FAQ’s

Who is doing the works?

A professional demolition contractor with expertise in asbestos removal will undertake the main demolition works.

How is the removal of hazardous materials managed?

All hazardous material, such as asbestos, will be removed in line with strict WorkSafe Victoria and Environment Protection Authority Victoria (EPA) regulations and standards. Air monitoring will be in place to make sure safe levels are maintained.

Will there be any impact on me or my family?

All demolition works will be carried out safely and we will do our best to minimise inconvenience to nearby neighbours and businesses.

Our contractor will use control measures, such as dust suppression and noise reduction equipment, to reduce impacts as much as possible.

Access to the site will be restricted to contractors only.

We thank you for your patience while we undertake these critical works.
